

# General Maintenance Contract (GMC)

We provide integrated general maintenance services for onshore and offshore operations. Our focus is on maximizing asset reliability, reducing downtime, and ensuring safety across industries through comprehensive maintenance solutions.

## Preventive & Corrective Maintenance

- Scheduled and reactive maintenance to keep systems running efficiently, reduce breakdowns, and extend asset life.

## Manpower Supply

- Provision of skilled and certified personnel across disciplines, tailored to project or operational needs on a short- or long-term basis.

## Shutdown & Turnaround Support

- Complete planning and execution support during plant shutdowns and turnarounds to ensure minimal downtime and safe, timely completion.

## Inspection & Testing

- Advanced inspection techniques including NDT, pressure testing, and condition monitoring to ensure equipment integrity and compliance.

# General Maintenance Contract (GMC)

## Piping, Welding & Fabrication

- Fabrication, installation, and repair of industrial piping systems, performed to international codes and quality standards.

## HVAC System Maintenance

- Servicing of industrial HVAC systems to ensure proper function, energy efficiency, and environmental control.

## Procurement & Spare Parts Supply

- Reliable sourcing and delivery of critical spare parts and consumables, minimizing lead times and downtime.

## 24/7 Emergency Response

- Round-the-clock deployment teams ready to respond to urgent maintenance issues, restoring operations quickly and safely.

## Rotating Equipment Maintenance

- Maintenance of pumps, compressors, turbines, and motors, including alignment, balancing, overhauls, and performance checks.

## Scaffolding, Painting & Insulation

- Safe scaffolding access, protective industrial coatings, and thermal insulation services to support plant maintenance and energy management.
